# INTRODUCING SharePoint **STARTER KIT**

## **GET OUT OF THE GATE QUICKLY**

WITH A TURNKEY SHAREPOINT ENVIRONMENT  
CUSTOMIZED TO YOUR NEEDS.

Microsoft SharePoint is a powerful tool in the Office 365 suite.

But many businesses either don't know what to do with it or are using it in a way that creates more problems than it solves.

**SharePoint Starter Kit** provides small to medium-size businesses a complete, custom-configured package including a company Intranet portal, so you can collaborate, communicate and manage documents seamlessly and more efficiently right away. And if you're a current Office 365 user, there are no additional licensing costs. Whether you're looking to migrate to the cloud or already there, we'll take the guesswork out of working with SharePoint.
