SAVE TIME AND MONEY WITH ELEARNING.

What type of eLearning does your team need?

Here's a staggering number: Ineffective training costs businesses up to $13.5 million a year per 1,000 employees. On top of this, the cost of losing and having to replace an employee can be anywhere from 20 to 200% of their annual salary. To increase retention rates—and cut costs in the long run—organizations can focus on more effective training solutions that help employees to reach their full potential.

Custom eLearning

While investing in education is essential, you need confidence that you'll see a worthwhile return. By taking a consultative approach to planning and developing your education and training initiatives, Bulletproof is able to ensure you're getting exactly what you need to see clear results.

Bulletproof's eLearning Specialist team is comprised of Solution Architects, Instructional Designers, and Project Managers who bring a comprehensive skill set to your educational projects. Having worked with many globally recognized Fortune 500 companies, Bulletproof helps you construct efficient, results-focused eLearning solutions that tackle issues identified during the consultation process.

BULLETPROOF
a GLI company

Off-the-Shelf eLearning
